INTERNAL PARASITES.

Cooper's New Discovery has taught me many things. Not least of which is that parasites or tape worms as they are called are

responsible for an immense amount of suffering. Thousands of these creatures have been brought to me by people who have taken the New Discovery and I now know that an immense amount of suo

trouble is caused in reality by one of these parasites. A man or woman may be afflicted in this manner for years and not realize the true cause of their suffering. When I first sold Cooper's New Discovery I did not know that the medicine would remove this trouble. I have since found that it invariably does no. The following it invariably does so. The following letter is a fair sample of the symptoms as experienced by an individual thus

affected:

"I was always tired. My stomach bloated and the slightest exertion made me sick, weak and dizzy. My appetite was variable and a good nights sleep was unknown to me. When I awoke in the mornings I had a bad taste in my mouth and a coated tongue. I heard of the wonderful benefits that were being derived from benefits that were being derived from Cooper's New Discovery, and decided to try it." "The horrible tape worm, sixty feet
